

Procreate Backup Cheat Sheet

Keep your brushes, palettes, and artworks safe during updates! Follow these simple steps to back up everything in Procreate.

Backing Up Brushes

- 1 Open Procreate and go to the **Brush Library**
- 2 Swipe left on the brush set you want to back up
- 3 Tap **Share** and export it as a **.brushset** file
- 4 Save it to your **Files app**, iCloud, Dropbox, or external drive

Backing Up Color Palettes

- 1 Go to the Color Panel and tap **Palettes**
- 2 Tap the palette you want to back up
- 3 Tap the **three dots (...)** menu
- 4 Choose **Share** and save it to Files, iCloud, or Dropbox

Backing Up Artwork (Canvases)

- 1 Open your **Gallery** in Procreate
- 2 Tap **Select** and choose the artworks you want to back up
- 3 Tap **Share** and select **Procreate format** (.procreate)
- 4 Save your files to the Files app, iCloud, Dropbox, or an external drive

Pro Tips for Safe Backups

Back up before every major Procreate update

Keep a copy in cloud storage (iCloud, Dropbox, Google Drive)

Save another copy on an external hard drive or USB stick

Export brushes and palettes in sets to stay organized

With these backups in place, you'll never have to worry about losing your brushes, colors, or artwork when Procreate updates. Safe creating! ✨
