

How to Draw a Star

Perfect points in 4 steps

Step 1:
Draw an
upside-down V
at the top

Step 2:
Draw
diagonal lines
going down
and out

Step 3:
Connect bottom
points to
complete
the star

Step 4:
Add shading on
alternating points
and sparkle

Bottom Tips Box

- ★ Five-point star has symmetrical points
- ★ Inner points meet to form pentagon center
- ★ Keep point angles consistent
- ★ Shade alternating points for dimension
- ★ Add white highlights on tips
- ★ Draw sparkle lines radiating out
- ★ Can be outlined or filled solid
- ★ Perfect for flags, decorations, night sky

Side panel - Star Variations

Classic 5-Point:
What we drew

4-Point:
Cross/compass star

6-Point:
Star of David

Stars bring wishes, celestial magic, and universal symbols!
