Russian Mammoth · A4 printable line art

Loved painting that one?

There are nineteen more sunflowers where it came from.

- 20 named sunflower varieties, each drawn from its real catalogued character
- A colour recipe card for every single one – five swatches with hex codes and a brand-neutral mix hint, so you never have to guess what to mix
- A variety identifier index – all twenty at a glance
- 42-page A4 PDF at 300 DPI, plus a zip of all 20 individual PNGs
