

8 Free Christmas Coloring Pages for Adults

Print, pour a cup of something warm, and colour

How to Use These Pages

Print on the right paper.

Set your printer to A4 portrait at 100% scale. Card or heavyweight paper stops markers bleeding through; ordinary printer paper is perfect for pencils.

Start with the big shapes.

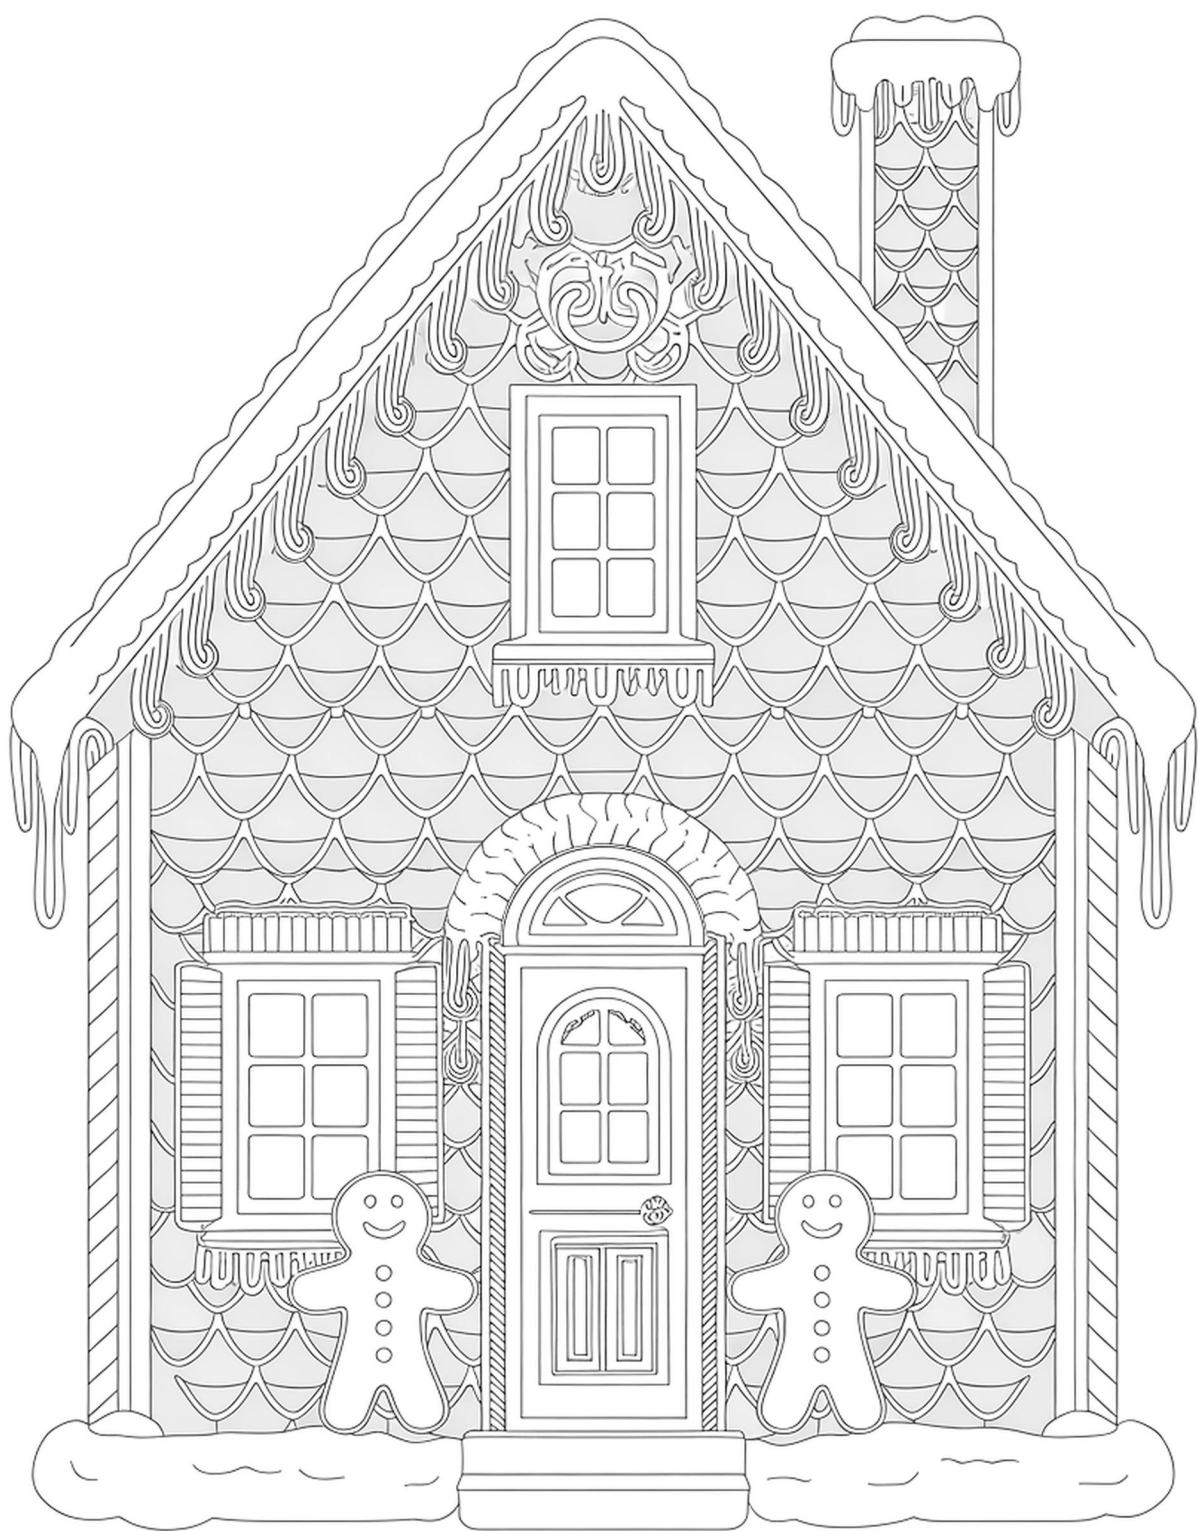

Block in the largest areas first and leave the tiny detail until last. It keeps the page feeling calm instead of fiddly.

Pick three colours and stick to them.

A limited palette makes a finished page look considered. Deep red, forest green and warm gold is a lovely festive trio.

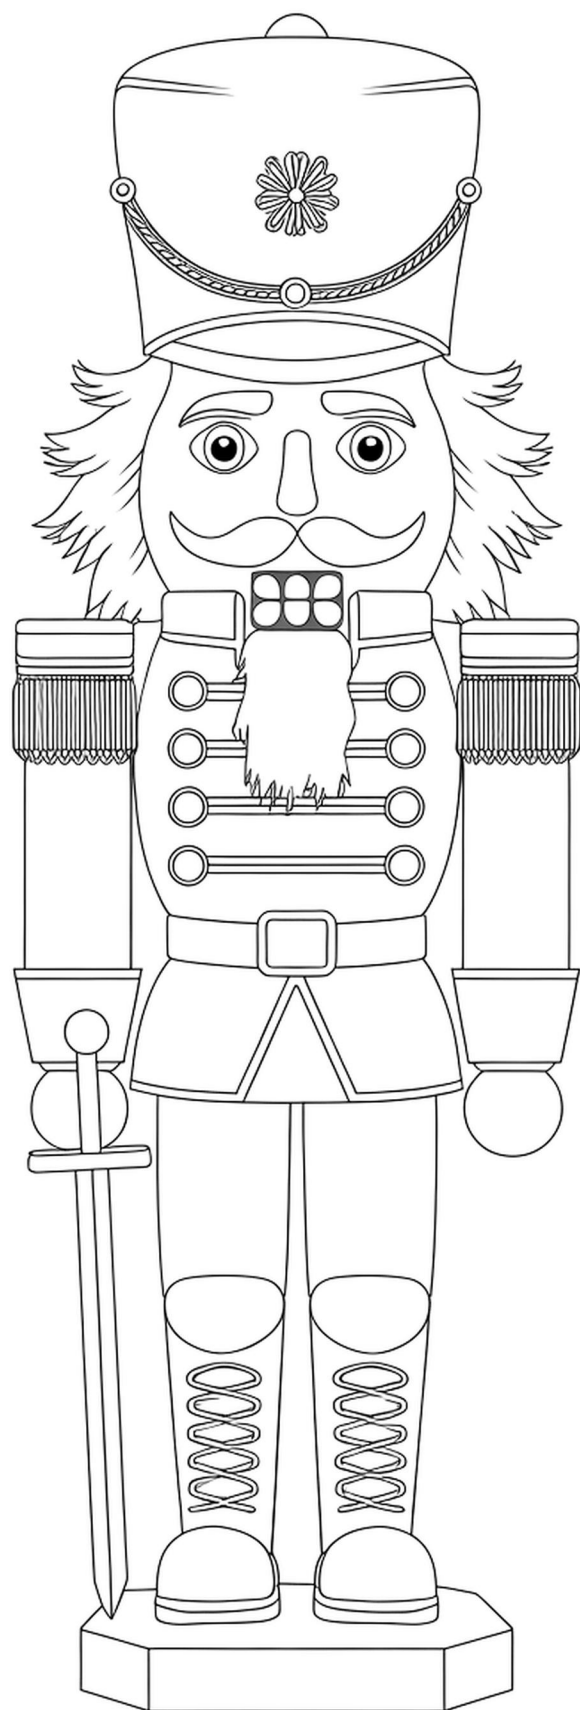

Print as many copies as you like.

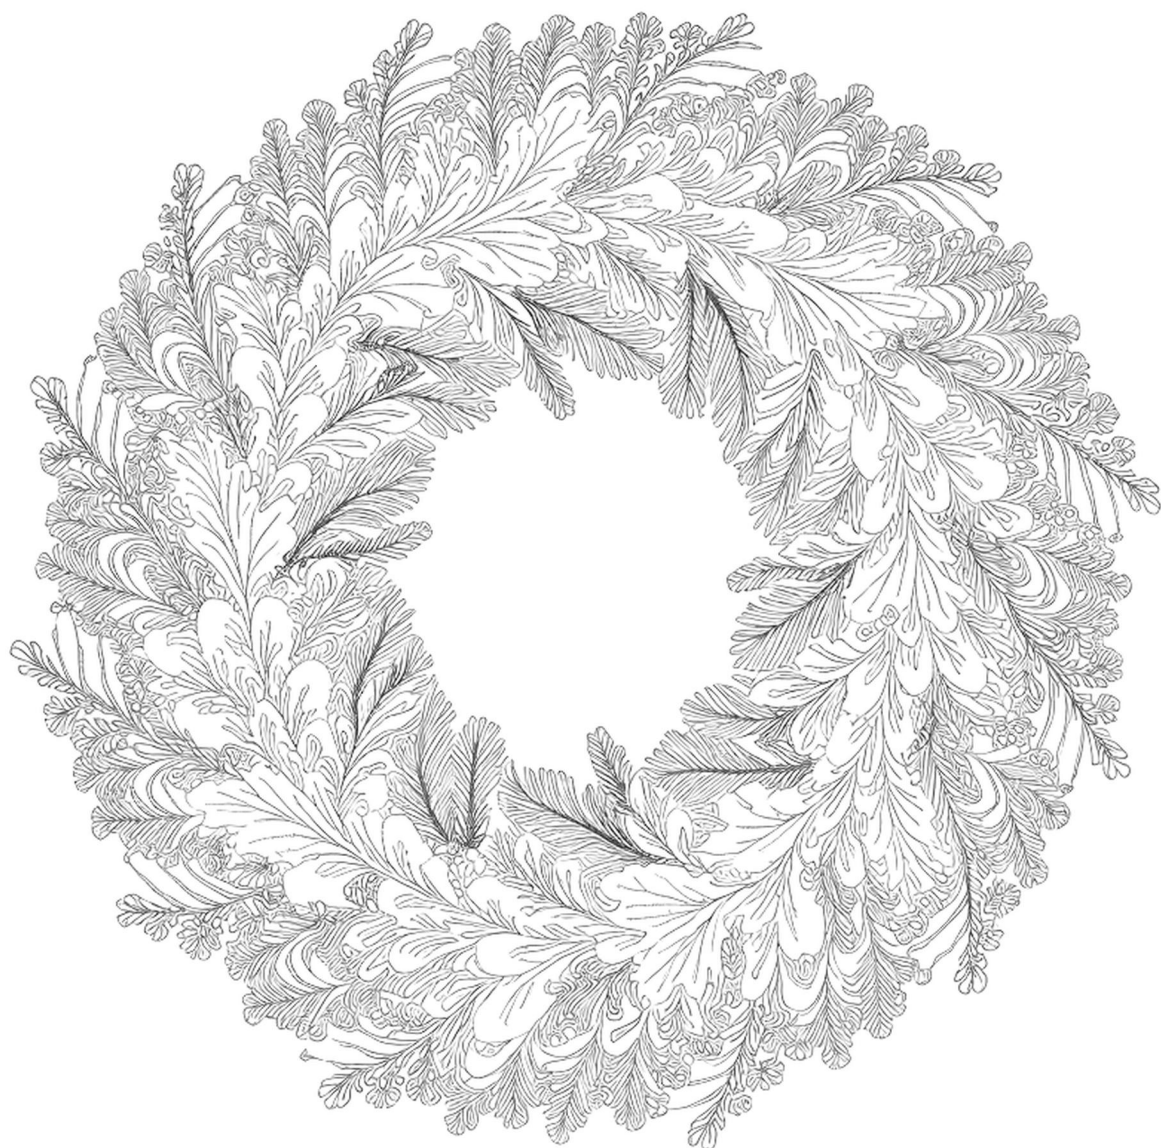

These are yours to reprint for your own use, so try the same page twice in two different palettes.
