3 Ways to Use These

1. Paint a wet-in-wet night sky

Wet your paper first, then drop in indigo and violet behind your cat silhouette and let the colour bloom softly for a moody Halloween sky.

2. String a garland

Cut out your painted cats and string them on twine for instant bunting.

3. Decorate cards and journal pages

Cut a single cat or moon from the painted sheets and glue onto a plain card or journal page for a quick, pretty embellishment.
