How to Use Your Templates

Printing

Print at 100% (actual size) on A4. On US Letter, choose "fit to page" and the angel shrinks a touch to fit. Want a little one for gift tags or an ornament? Set your printer's scale to 50%.

Paper

Ordinary printer paper is fine for colouring and tracing. Use 160-200 gsm card for tree toppers, ornaments, garlands and stencils, and watercolour or mixed-media paper if you want to paint.

Trace or transfer

Tape the page to a window or a light pad, lay your paper on top and trace. Or scribble soft pencil on the back of the template, flip it over and go over the lines to transfer the outline.

Cut out

Cut a little outside the line, then trim. For a tree topper, print the first angel on card, cut a slit up the skirt and curl it into a cone so it sits over the top branch. The wings pages make lovely cards and garlands too.

Colour or paint

Keep the wings mostly white and add just a whisper of pale blue or blush in the feather shadows, then a touch of gold pen on the halo. It makes them glow. Pencils, markers and watercolour all work.

Loved making these?

My Patreon is where my weekly watercolour template sets go out to members: printed outlines with painted references, plus Procreate stamps and palettes.

If you'd like something new to make each week, come and join me.
