12 Christmas Stocking Templates

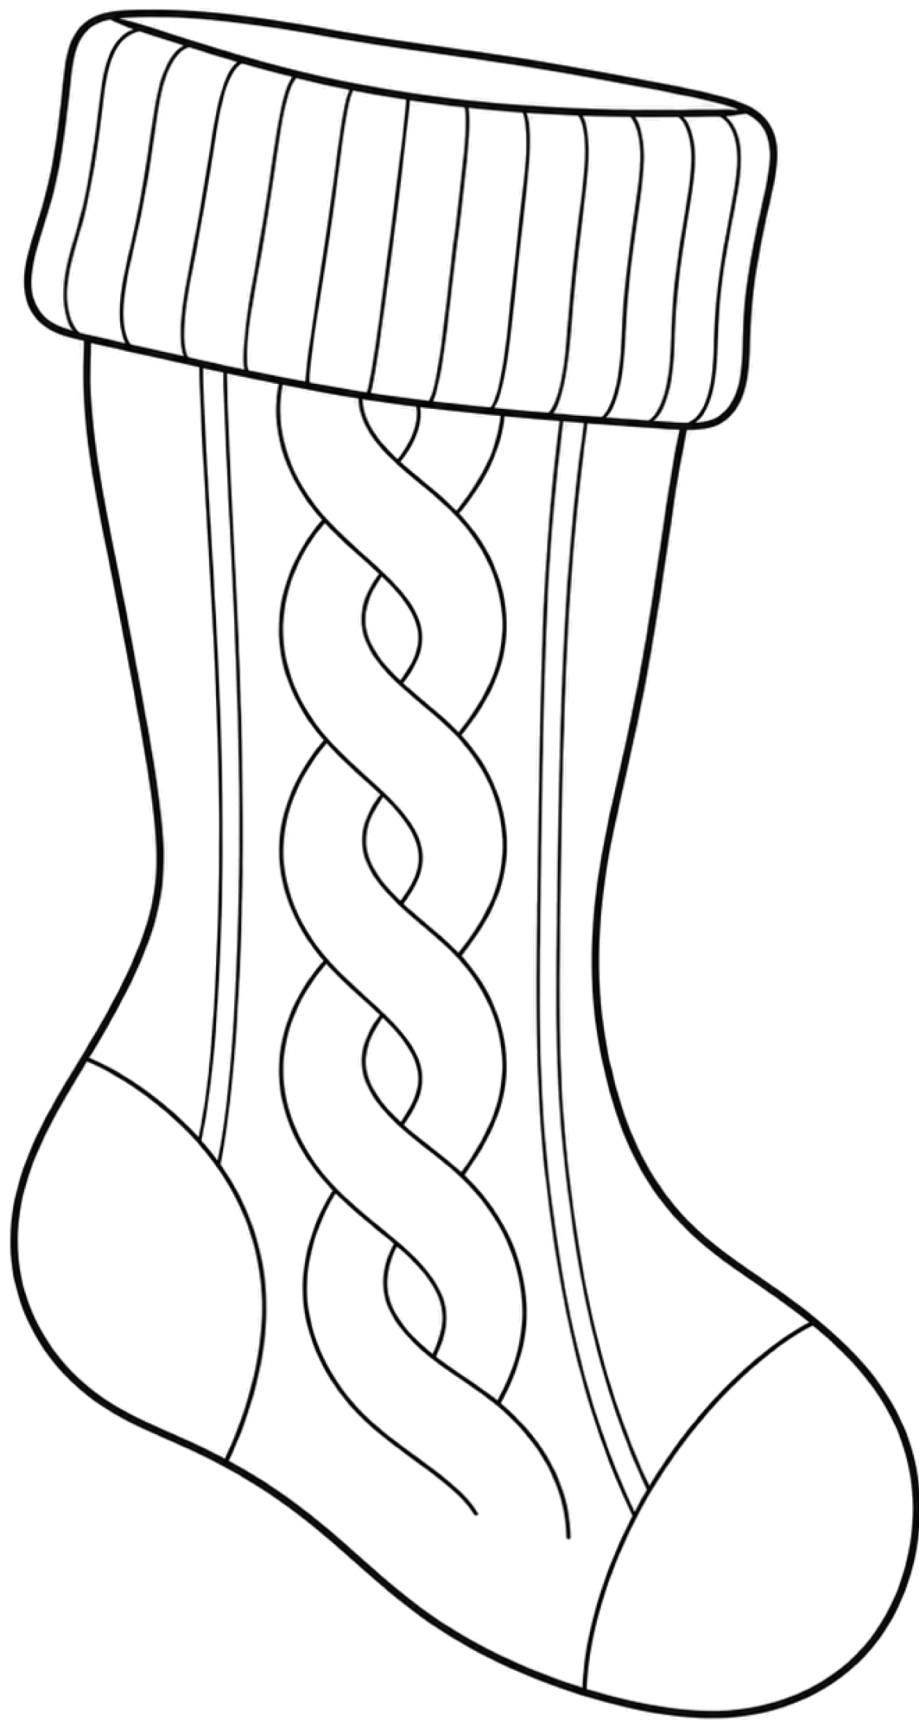

to trace, colour, paint, sew or cut out

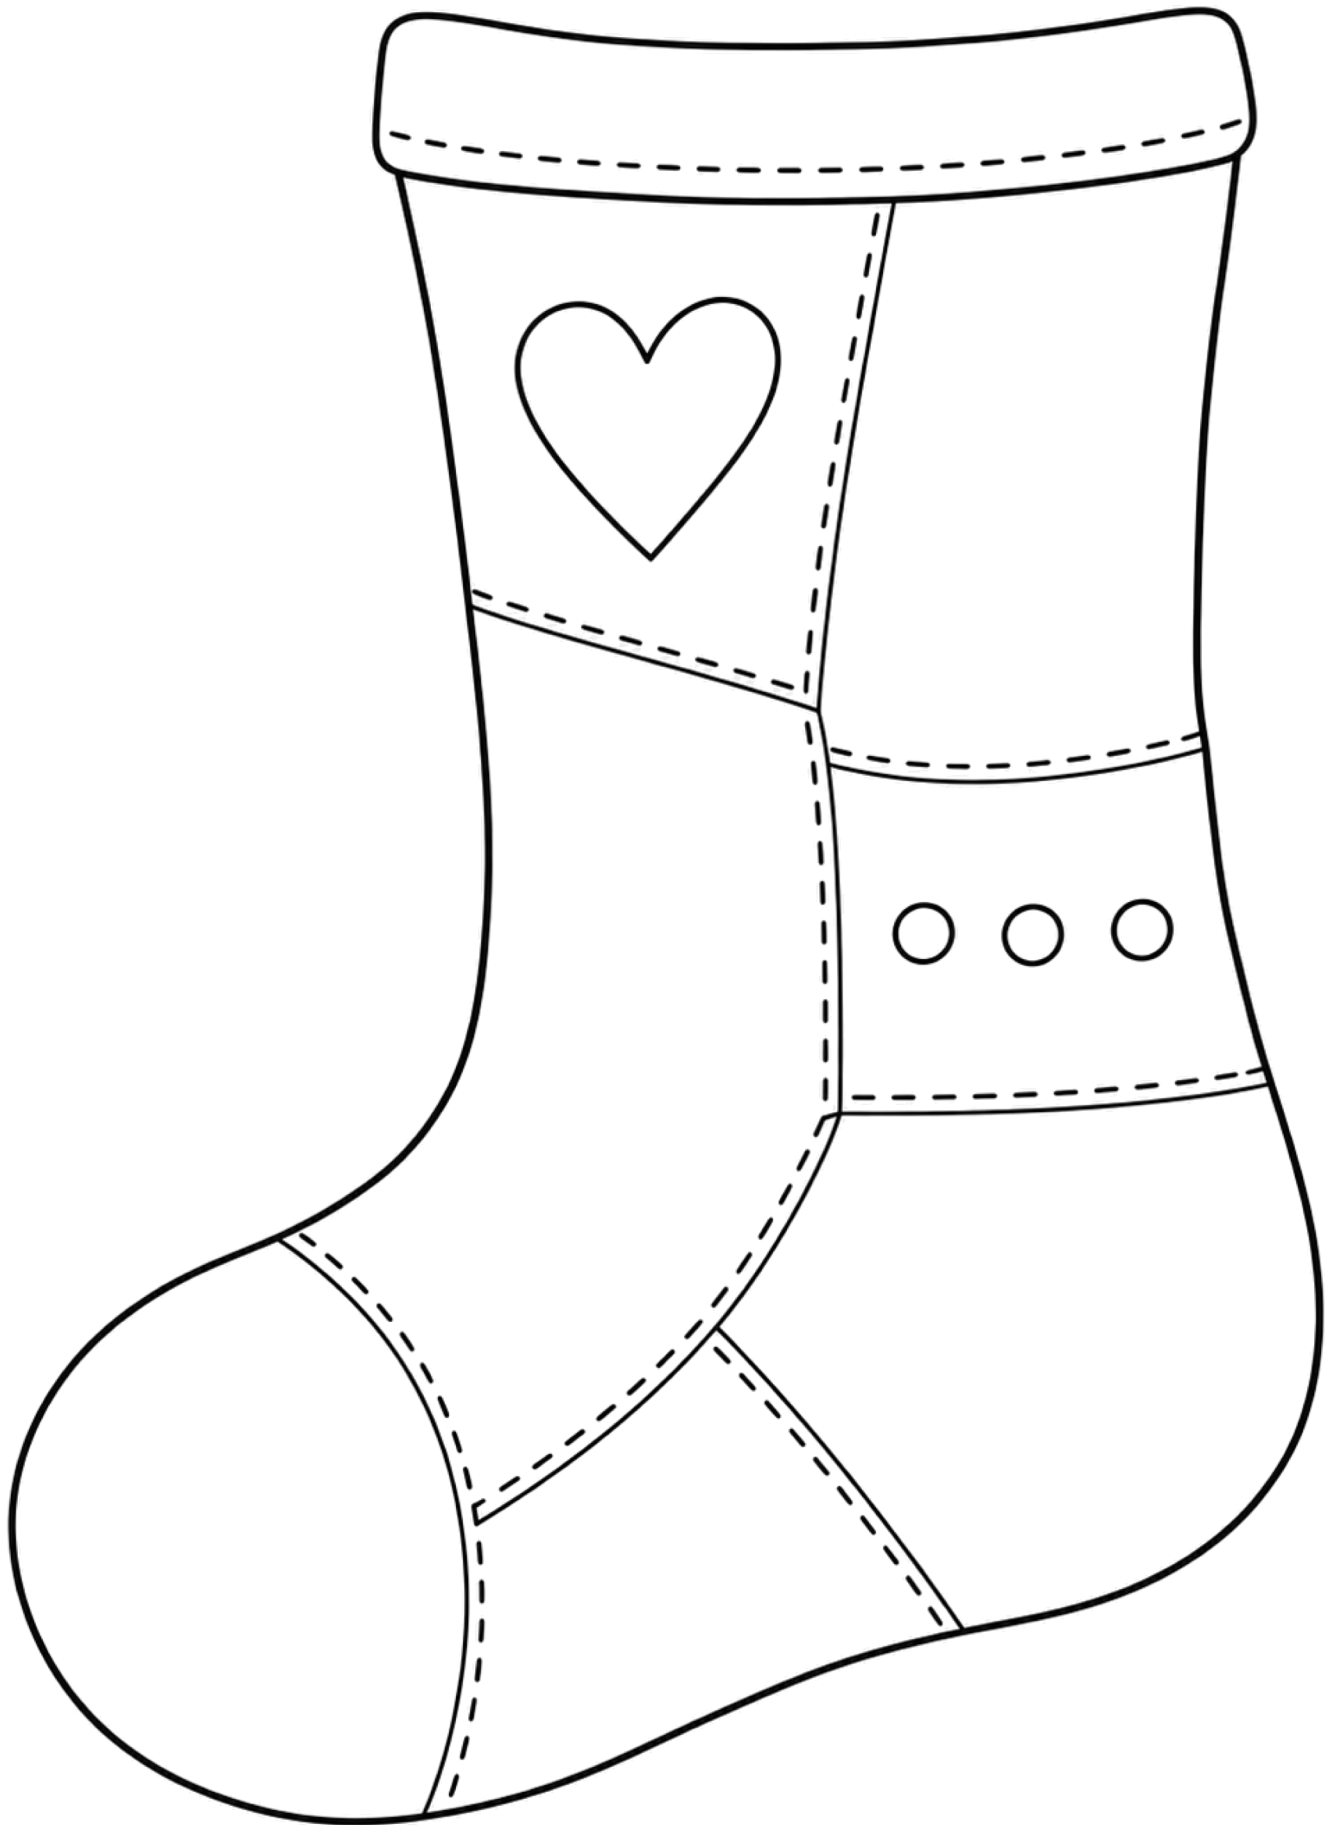

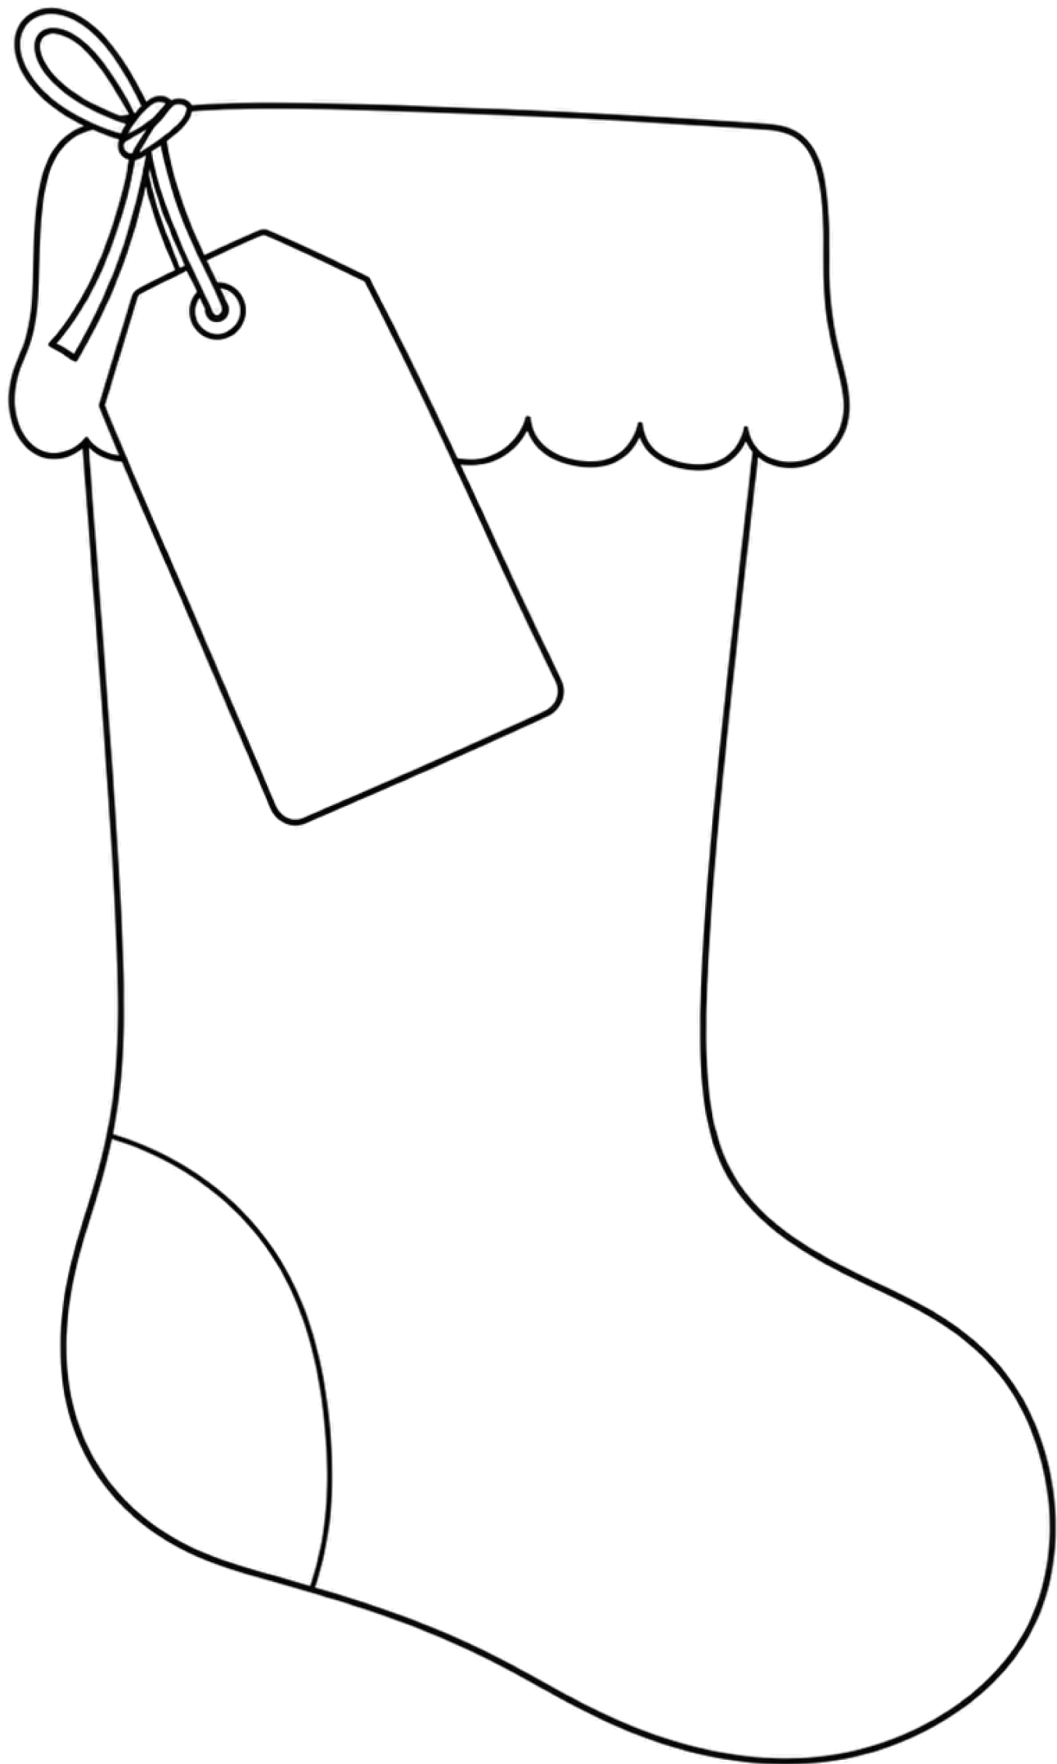

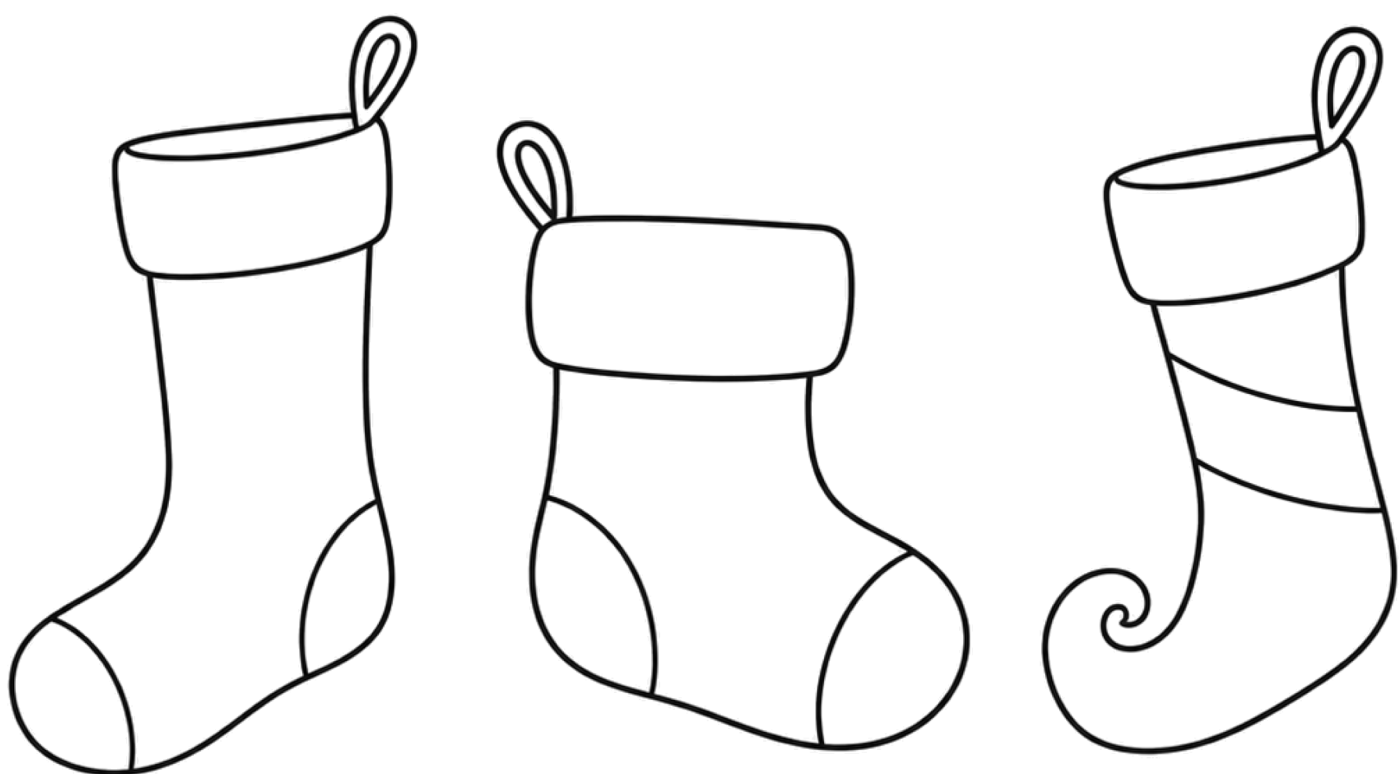

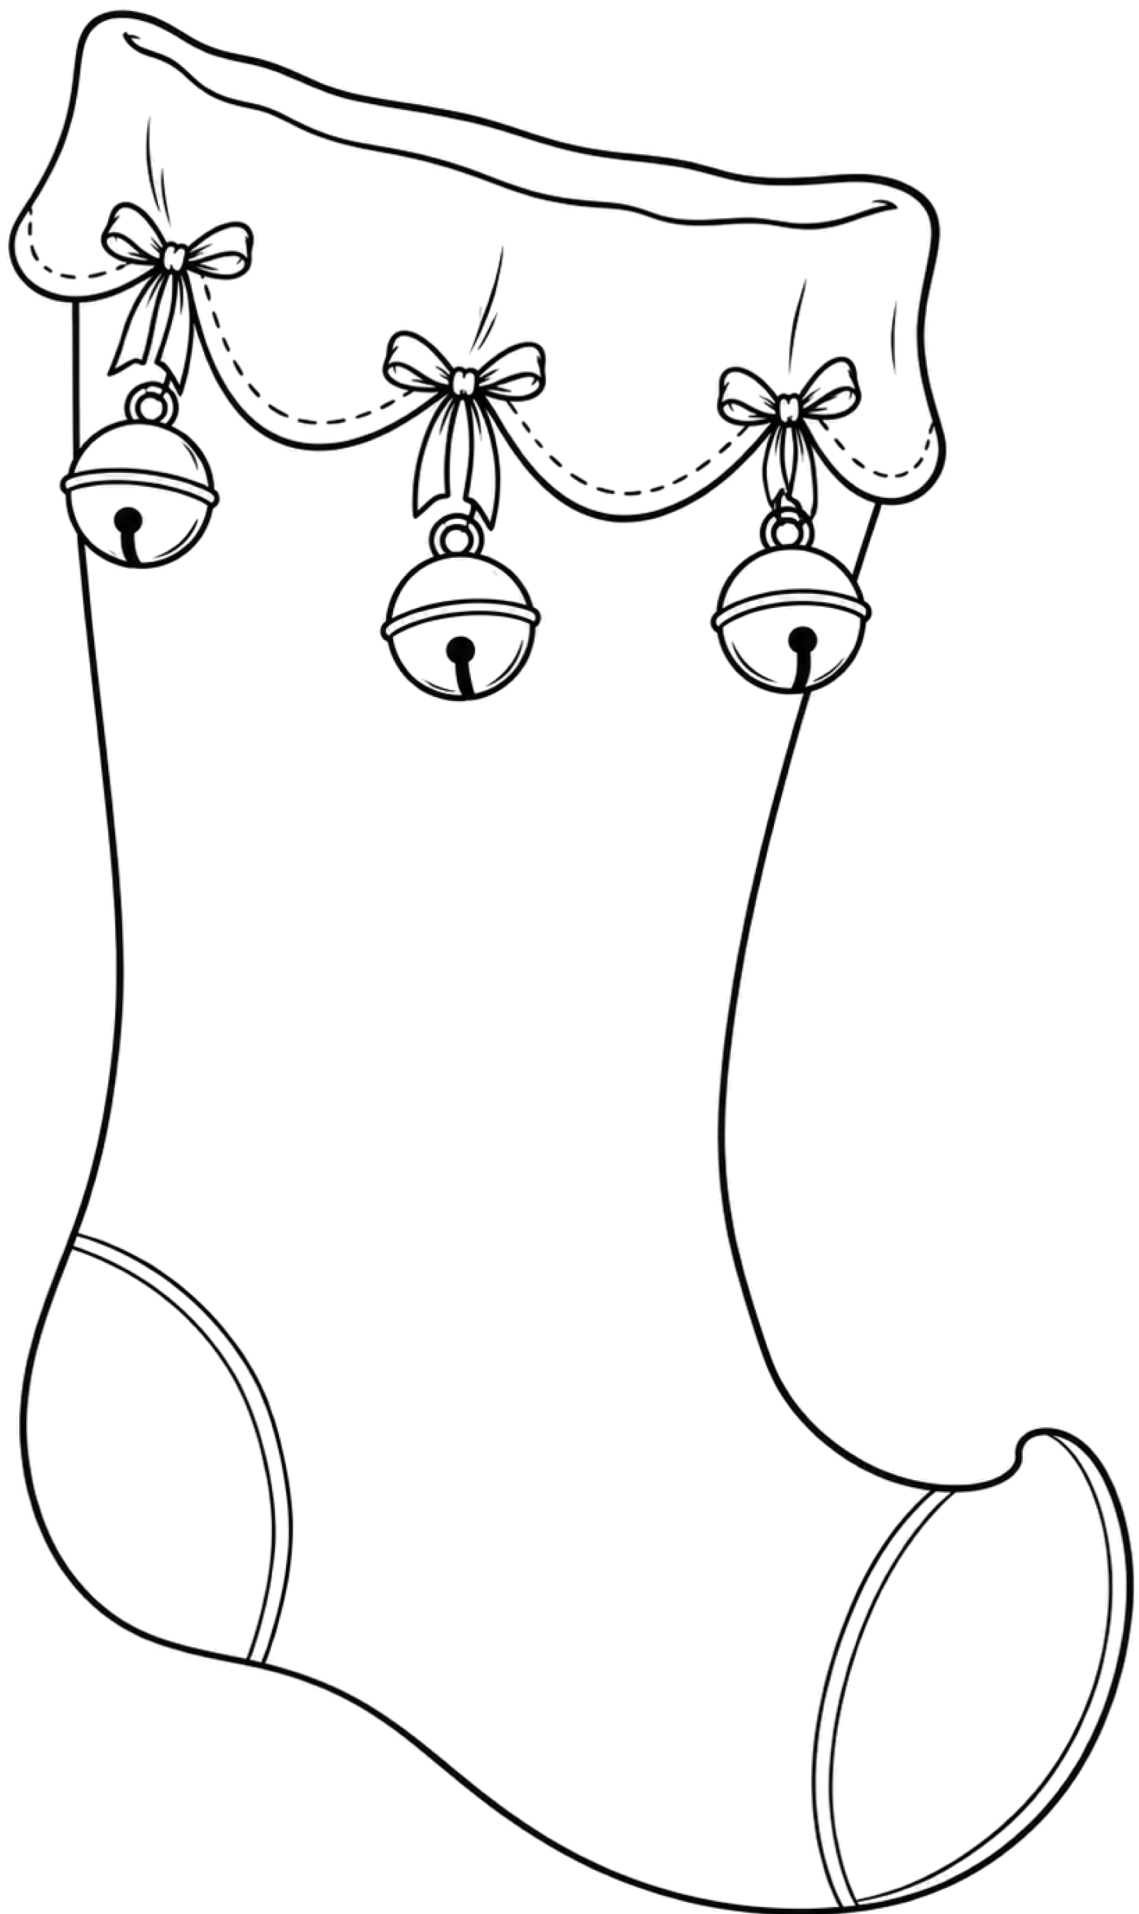

How to Use Your Templates

Printing

Print at 100% (actual size) on A4. On US Letter, choose "fit to page" and the stocking shrinks a touch to fit. Want a bigger stocking for felt or fabric? Print the PNG at A3, or enlarge a copy at your local print shop.

Paper

Ordinary printer paper is fine for colouring and tracing. Use 160-200 gsm card for stencils, tags and garlands, and watercolour or mixed-media paper if you want to paint.

Trace or transfer

Tape the page to a window or a light pad, lay your paper or fabric on top and trace. Or scribble soft pencil on the back of the template, flip it over and go over the lines to transfer the outline.

Cut and sew

Pin the paper template to two layers of felt, cut about 1 cm outside the outline for a seam allowance, then stitch the two pieces together, leaving the top open. Cut the cuff and loop separately if you like.

Colour or paint

Pencils, crayons, markers and watercolour all work. Try a limited palette, say two reds, a green and a cream, so the stockings look like a matching set on the mantelpiece.

Loved making these?

My Patreon is where my weekly watercolour template sets go out to members: printed outlines with painted references, plus Procreate stamps and palettes.

If you'd like something new to make each week, come and join me.
