How to Use Your Templates

Printing

Print at 100% (actual size) on A4. On US Letter, choose "fit to page" and the design shrinks a touch to fit. For a smaller deer, set the scale to 50% and fit two on a sheet of card.

Tracing onto paper

Tape the page to a bright window or a light pad, lay your paper on top and trace. Or scribble soft pencil on the back, flip it over and go over the lines to transfer the outline.

Cut out

Print on thin card (160-200 gsm) and cut the deer out to use as stencils, gift tags, woodland garlands or card toppers. The simple outline deer is the easiest one to cut.

Color or paint

They color beautifully with pencils or markers. For watercolor, print on watercolor paper and use warm browns, with a paler cream on the chest, the tail and a fawn's spots.

Drawing practice

Lay tracing paper over a template and trace it a few times, then try drawing the same deer freehand beside it. Start with the simpler ones: the simple outline deer and the doe.

Personal and classroom use. Please don't resell or share the files themselves.

Loved making these?

My Patreon is where my weekly watercolour template sets go out to members: printed outlines with painted references, plus Procreate stamps and palettes.

If you'd like something new to make each week, come and join me.
