How to Use Your Coloring Pages

Printing

Print at 100% (actual size) on A4. On US Letter, choose "fit to page" and the page shrinks a touch to fit. Plain printer paper is fine for pencils, crayons and gel pens.

Colored pencils

Start light and build the color up in thin layers. Leave bits of white paper for snow and highlights, then add a darker shade along one side of each shape for a soft shadow.

Markers

Alcohol markers can bleed through, so slip a scrap sheet underneath. Felt tips and brush pens work well on ordinary paper; color in small circles to avoid streaks.

Watercolor

For paint, print on thicker paper (160 gsm card or more, or a watercolor paper your printer accepts) so it doesn't buckle. Let each area dry before you paint the one next to it.

Make it yours

Add a background, a few snowflakes or your own pattern on the mug and mittens. Finished pages make lovely cards, journal pages or a calm January display on the fridge.

Personal and classroom use. Please don't resell or share the files themselves.

Loved colouring these?

My Patreon is where my weekly watercolour template sets go out to members: printed outlines with painted references, plus Procreate stamps and palettes.

If you'd like something new to make each week, come and join me.
