How to Use Your Templates

Printing

Print at 100% (actual size) on A4. On US Letter, choose "fit to page" and the leaf shrinks a touch to fit. For smaller leaves, set the scale to 50% and fit two on a sheet.

Tracing

Tape the page to a bright window or a light pad, lay your paper on top and trace. Or scribble soft pencil on the back, flip it over and go over the lines to transfer the outline.

Cutting out

Print on thin card (160-200 gsm) and cut the leaves out to use as stencils, gift tags, a garland or a paper wreath. Trace round them onto colored paper for a whole pile.

Coloring and painting

Fill them with colored pencils, markers or watercolor. Leaves love loose greens: drop in a second green or a touch of yellow while the first is still damp and let them blend.

Your own patterns

The blank leaf has no veins on purpose. Fill it with stripes, dots, doodles or a pressed-flower collage, or write a word or a name inside it.

Personal and classroom use. Please don't resell or share the files themselves.

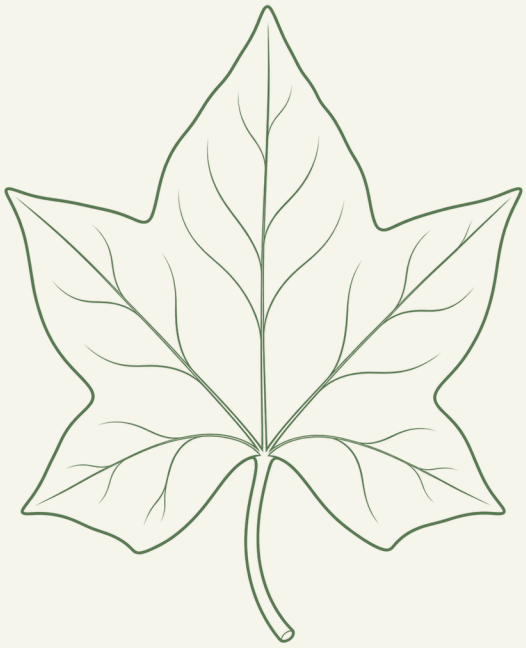

Loved making these?

My Patreon is where my weekly watercolour template sets go out to members: printed outlines with painted references, plus Procreate stamps and palettes.

If you'd like something new to make each week, come and join me.
