How to Use Your Templates

Printing

Print at 100% (actual size) on A4. On US Letter, choose "fit to page" and the bear shrinks a touch to fit. Want a bigger or smaller bear? Use your printer's scale setting: 50% gives two small bears per sheet once cut out.

Paper

Ordinary printer paper is fine for colouring and tracing. Use 160-200 gsm card for cutting out, masks, garlands and stencils, and watercolour paper (or mixed-media paper) if you want to paint.

Trace or transfer

Tape the page to a window or a light pad, lay your paper on top and trace. Or scribble soft pencil on the back of the template, flip it over and go over the lines to transfer the outline.

Cut out

Cut a little outside the line for little hands, then trim. Card templates make reusable stencils: draw round them on white felt, foam or paper.

Colour or paint

Polar bears aren't pure white. Try pale blue-greys and soft creams in the shadows, leave the rest of the paper white, and add a black nose. Pencils, crayons, markers and watercolour all work.

Loved making these?

My Patreon is where my weekly watercolour template sets go out to members: printed outlines with painted references, plus Procreate stamps and palettes.

If you'd like something new to make each week, come and join me.
