12 Snowman Templates

to trace, colour, paint or cut out

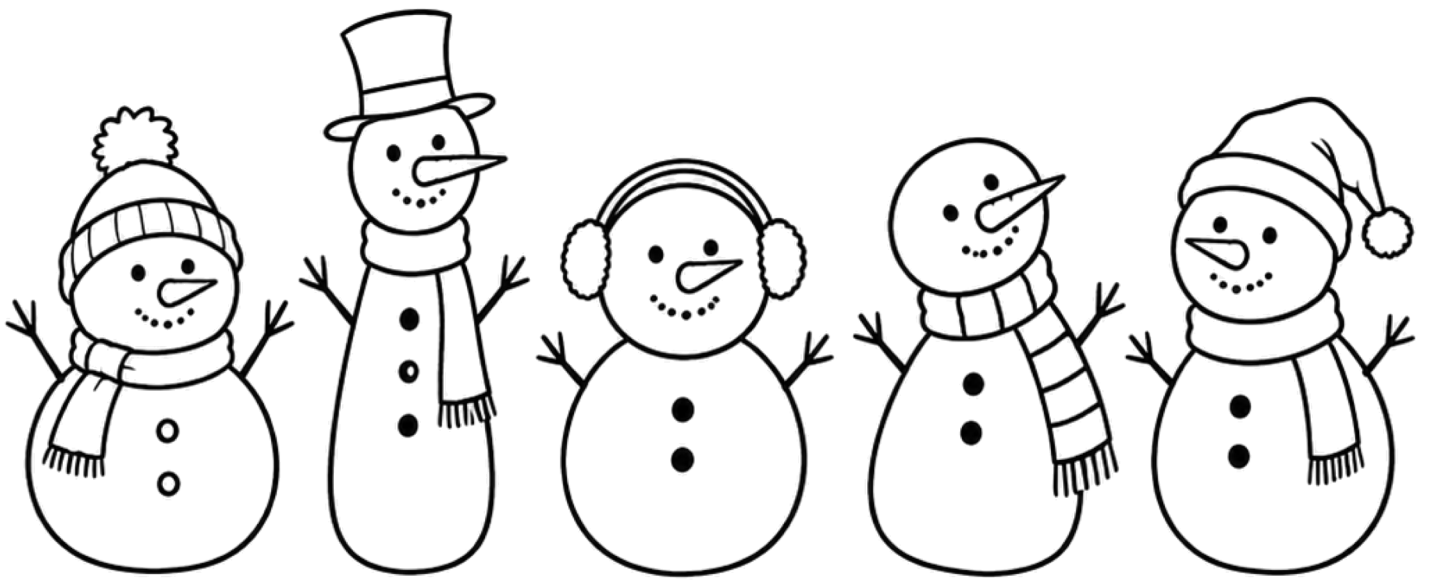

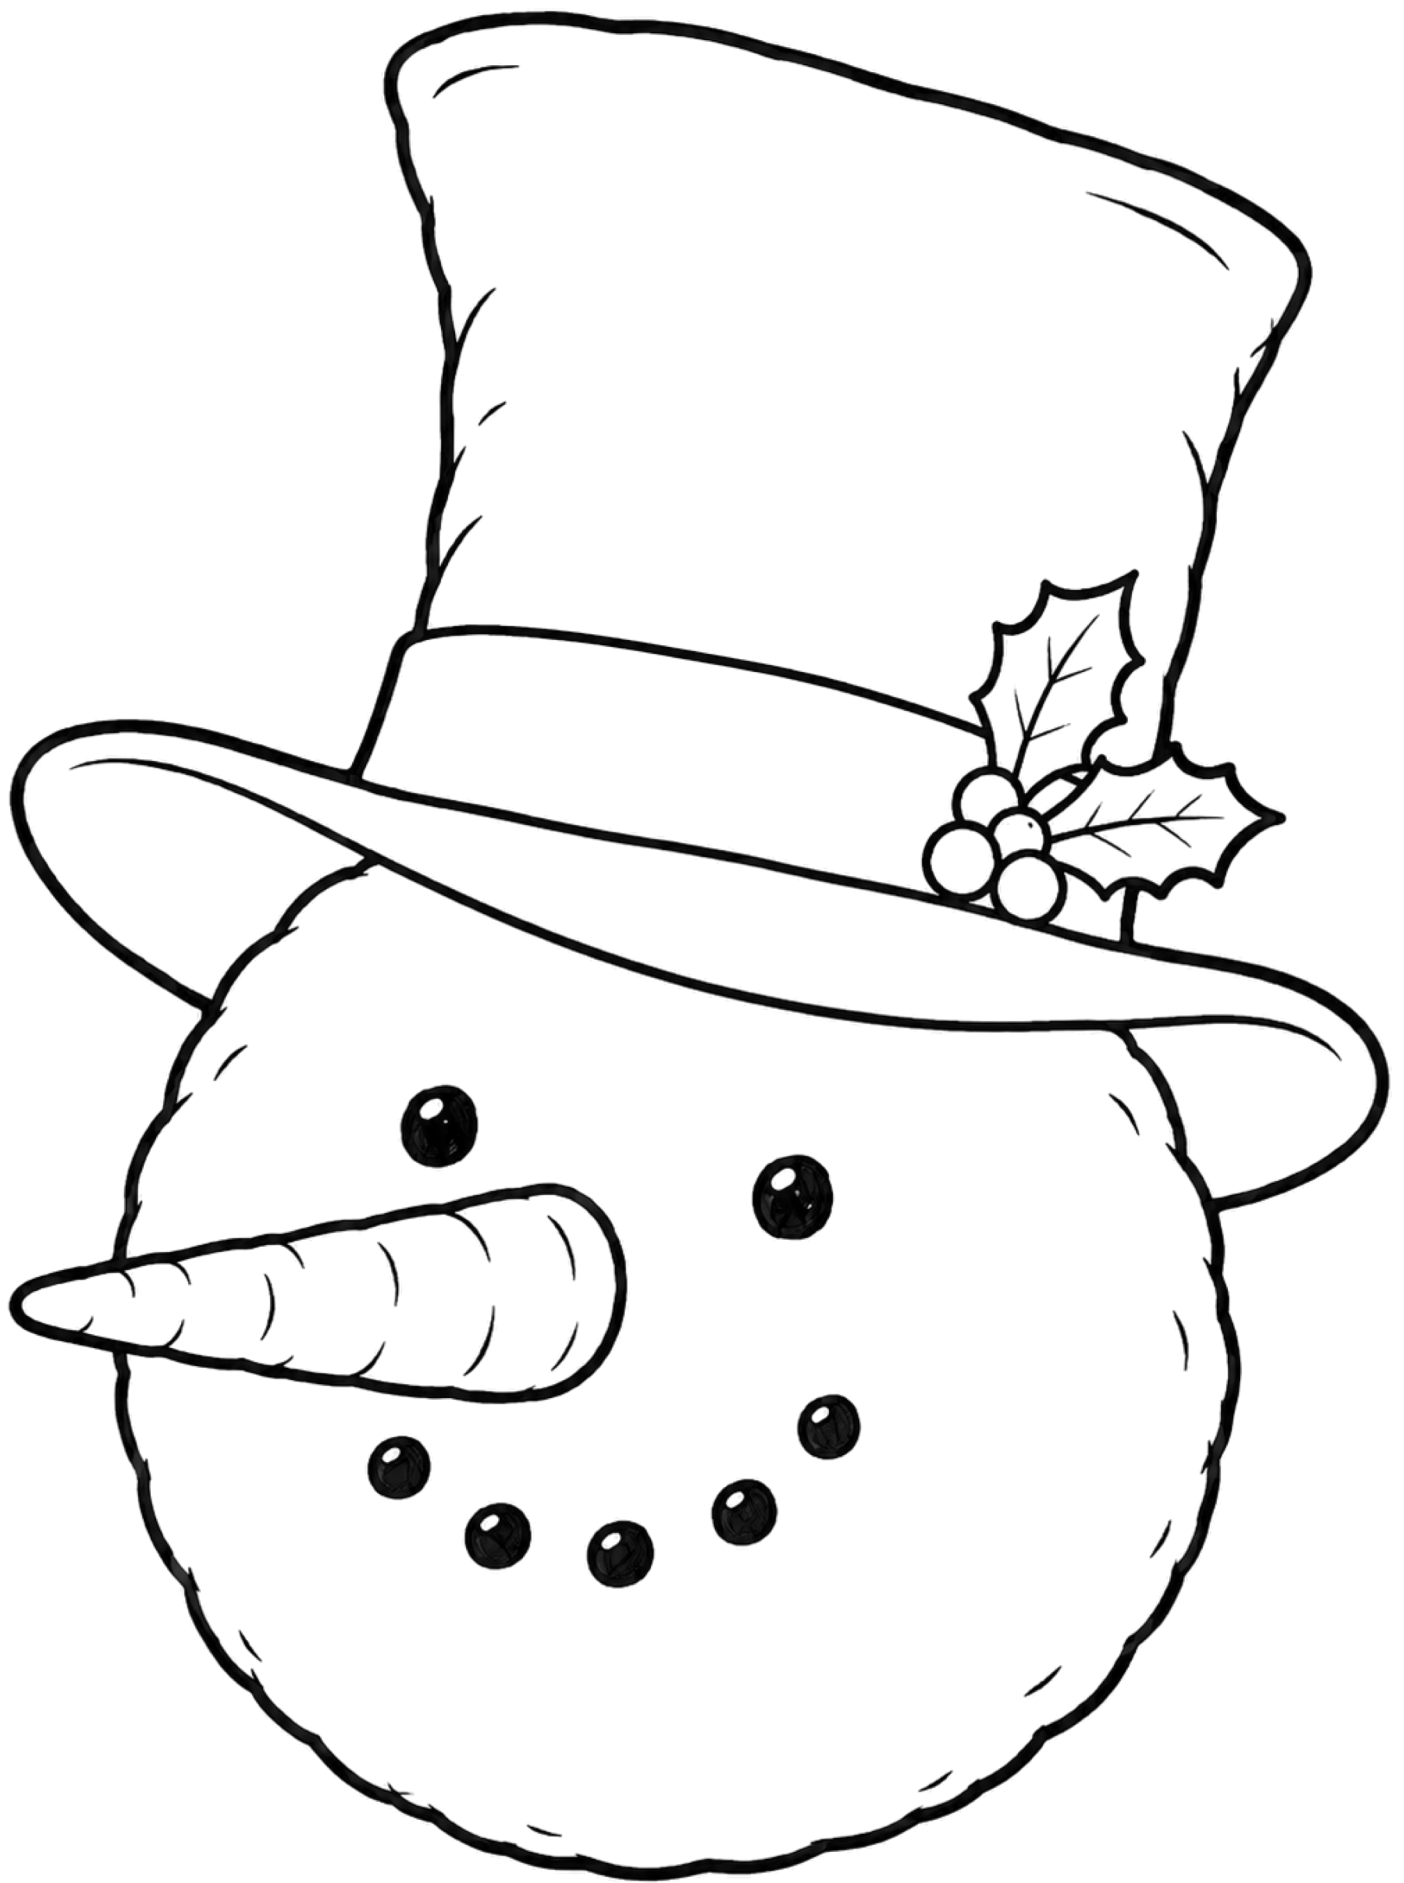

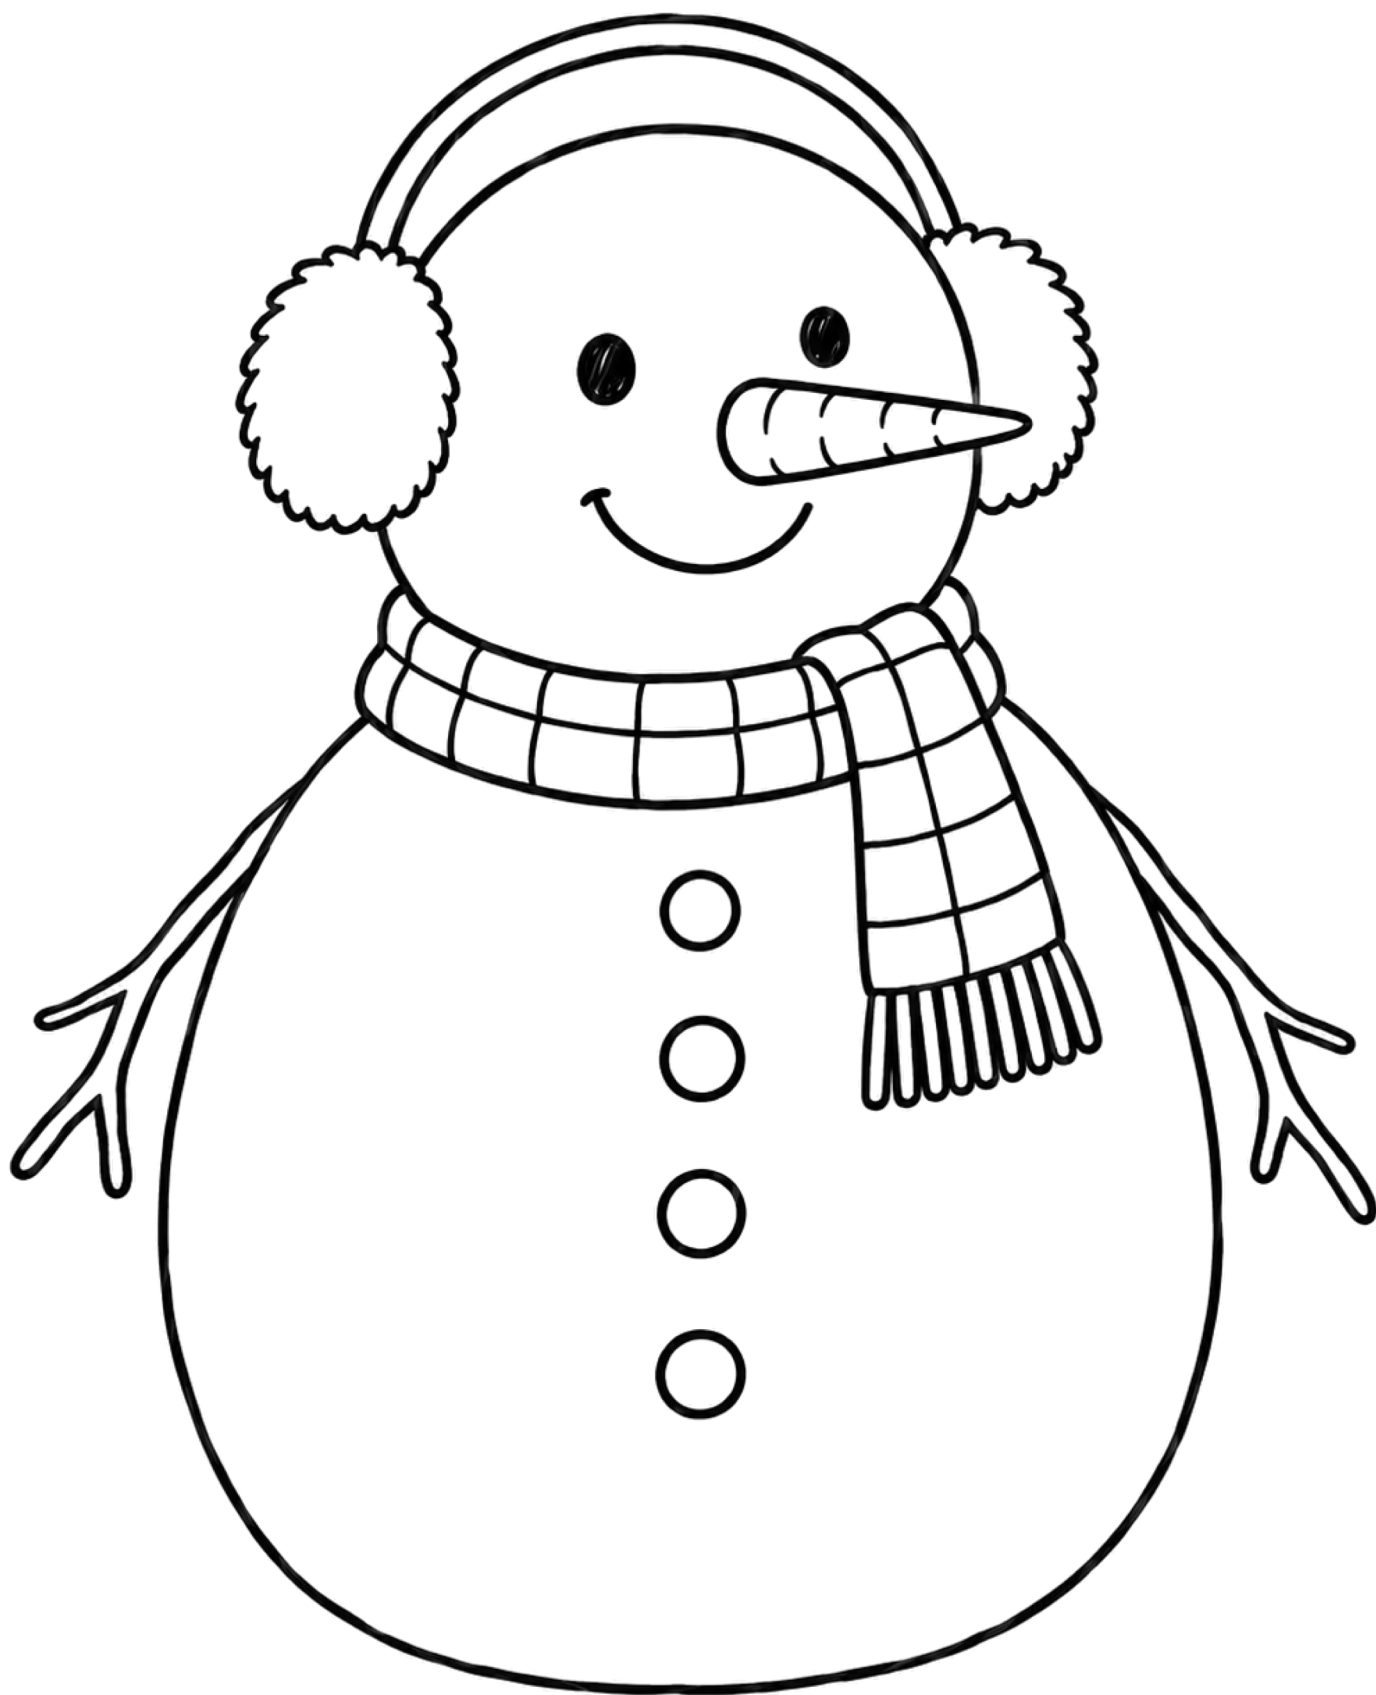

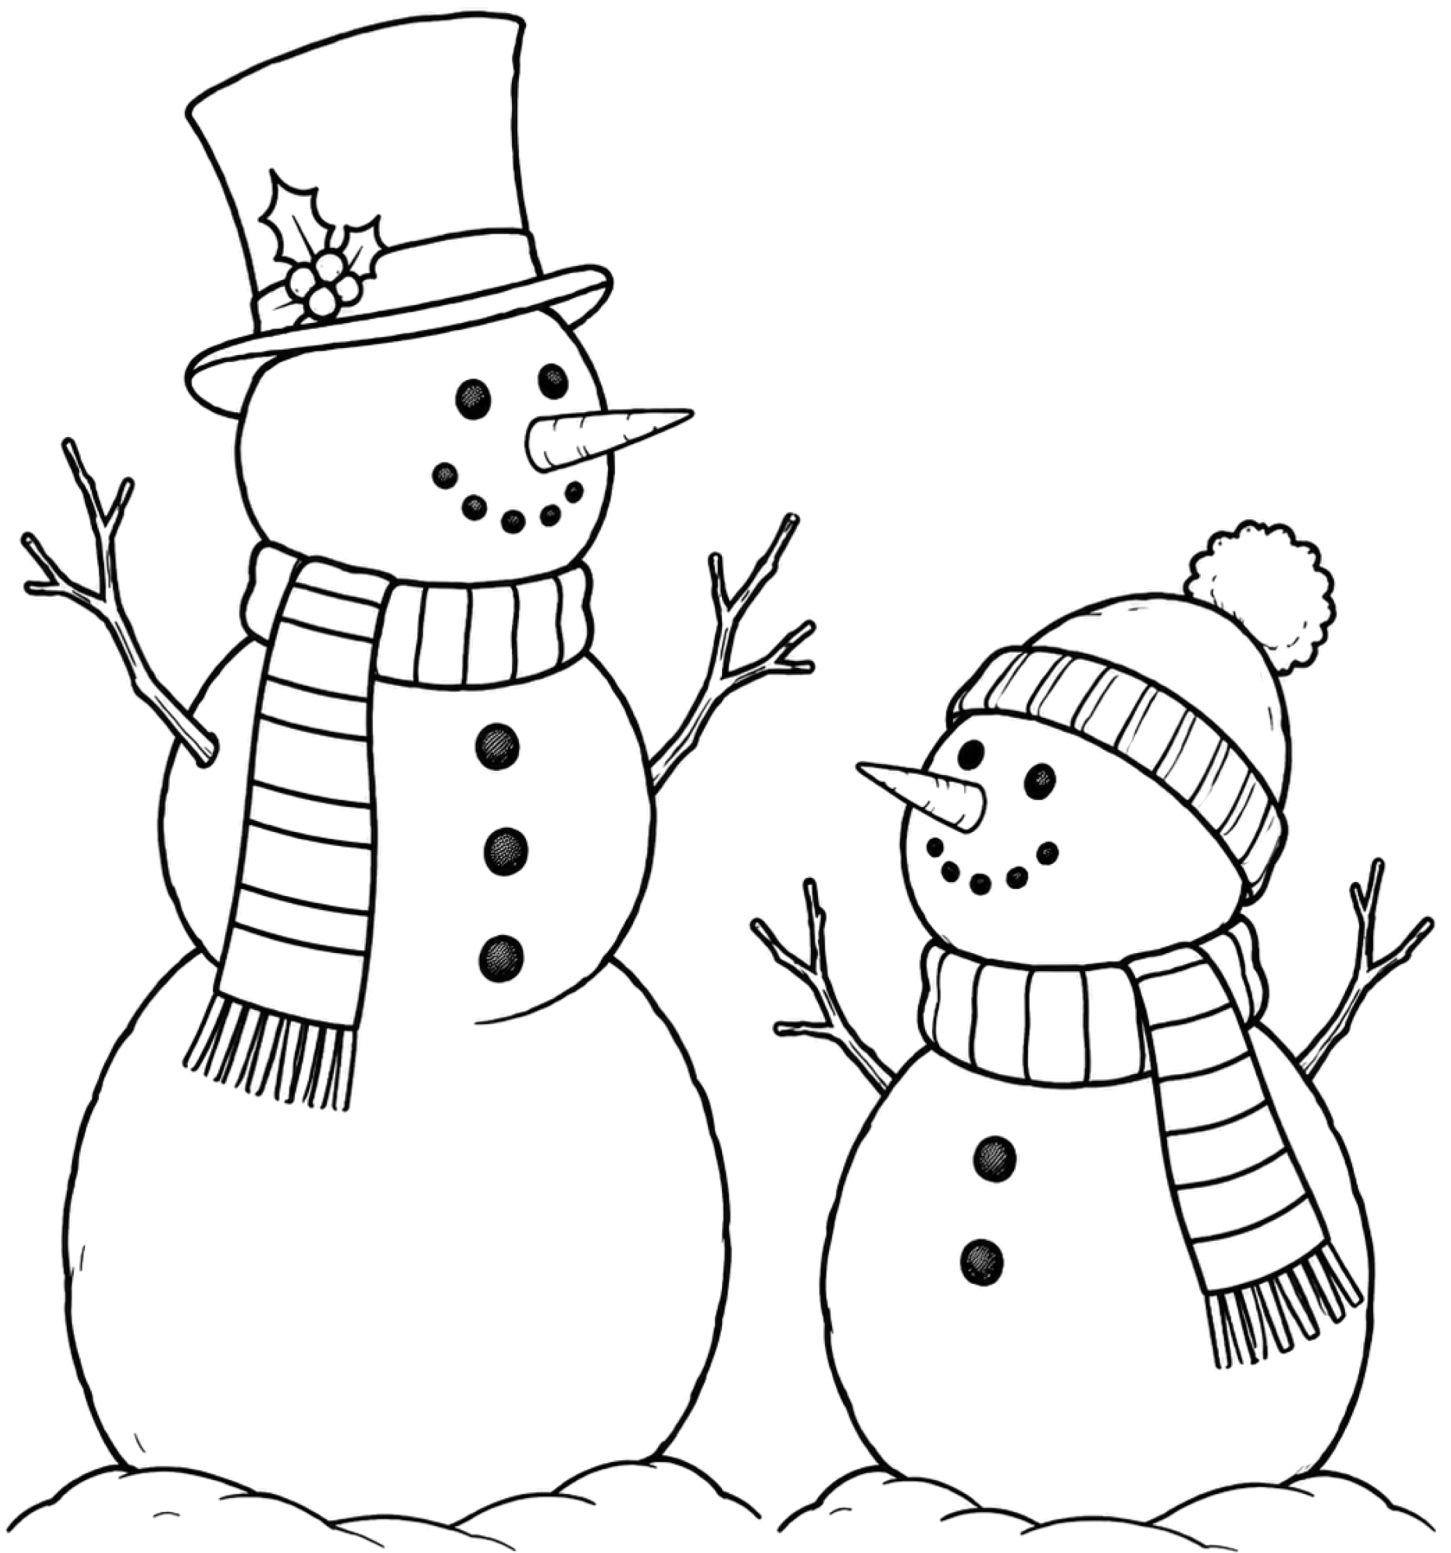

How to Use Your Templates

Printing

Print at 100% (actual size) on A4. On US Letter, choose "fit to page" and the snowman shrinks a touch to fit. Want a smaller snowman for cards or gift tags? Set your printer's scale to 50%.

Paper

Ordinary printer paper is fine for colouring and tracing. Use 160-200 gsm card for cutting out, masks, garlands and stencils, and watercolour paper (or mixed-media paper) if you want to paint.

Trace or transfer

Tape the page to a window or a light pad, lay your paper on top and trace. Or scribble soft pencil on the back of the template, flip it over and go over the lines to transfer the outline.

Cut out

Cut a little outside the line for little hands, then trim. Card templates make reusable stencils: draw round them on white felt, foam or paper. The pieces page is made for cutting and building your own snowman.

Colour or paint

Snow isn't pure white. Try pale blue-greys in the shadows, leave the rest of the paper white, then go bold on the carrot nose, hats and scarves. Pencils, crayons, markers and watercolour all work.

Loved making these?

My Patreon is where my weekly watercolour template sets go out to members: printed outlines with painted references, plus Procreate stamps and palettes.

If you'd like something new to make each week, come and join me.
