How to Use Your Templates

Printing

Print at 100% (actual size) on A4. On US Letter, choose "fit to page" and the design shrinks a touch to fit. For a big window, print the PNG larger at a print shop, or set your printer to poster/tile.

Drawing on a window

Tape the page to the outside of the glass, facing in, then trace the lines from the inside with a white chalk pen or window marker. Test a small corner first; it wipes off with a damp cloth.

Tracing onto paper

Tape the page to a bright window or a light pad, lay your paper on top and trace. Or scribble soft pencil on the back, flip it over and go over the lines to transfer the outline.

Cut out

Print on thin card (160-200 gsm) and cut the shapes out to use as stencils, gift tags or a paper garland in the window.

Colour or paint

On paper they colour beautifully with pencils, markers or watercolour. On glass, fill the shapes with coloured window markers and keep the outlines white.

Want a whole window's worth?

My full Christmas Window set has 36 more designs,
and none of them repeats these free five.

4 showpiece scenes · corner swags, borders and arches
