Christmas Canvas Painting Templates

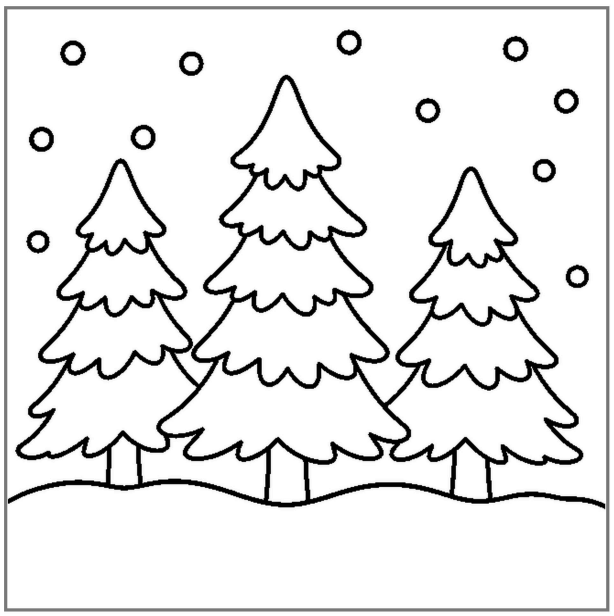

4 templates to trace + how to transfer them

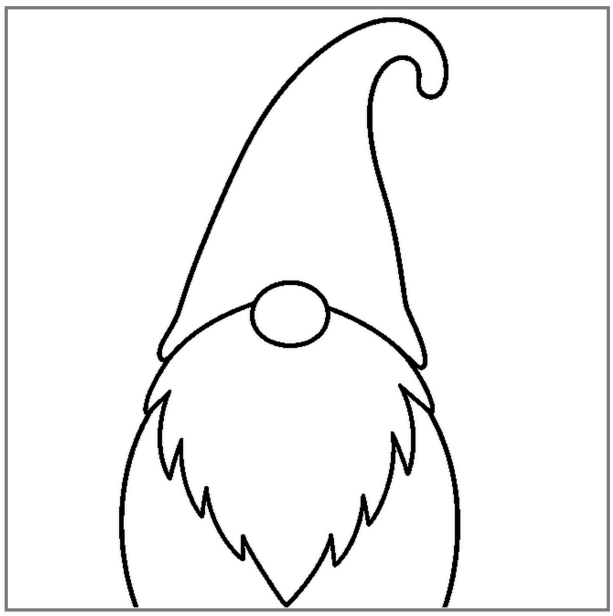

Painted references for the four templates

Four Templates to Trace

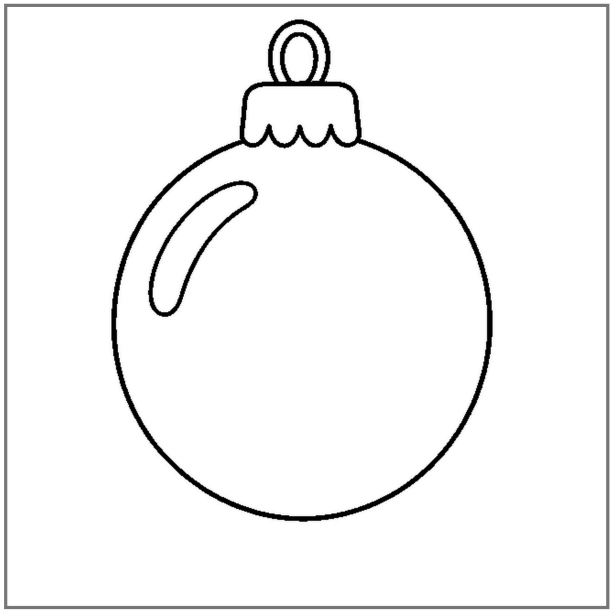

Print at 100% (not 'fit to page'). Each square is 8 cm, sized to sit inside a 10 x 10 cm (4 x 4 in) mini canvas. For a bigger canvas, enlarge it when you print.

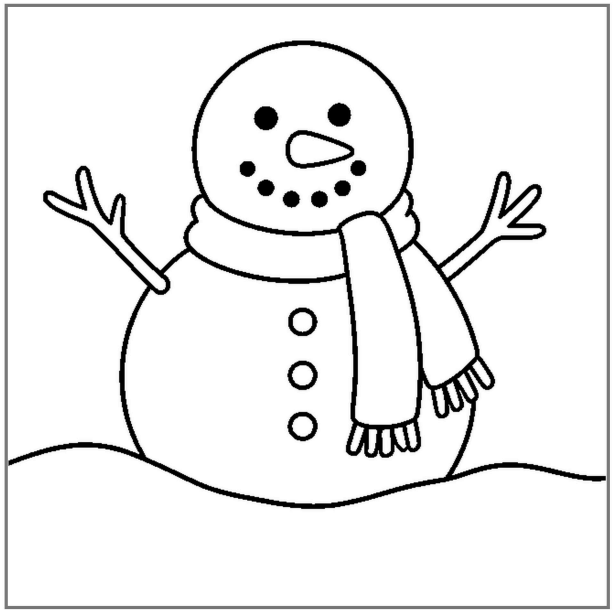

1. Snowy pine trees

2. Christmas gnome

3. Red bauble

4. Snowman

How to Transfer a Template

1. Cut out the square and turn it face down.
2. Scribble over the back of the lines with a soft pencil (2B to 6B).
3. Turn it face up, centre it on your canvas and tape the top edge.
4. Go over every line firmly with a ballpoint pen.
5. Lift a corner to check, then take the paper off. Paint the background first, around the faint lines.

Colours to use

Snowy pine trees: navy sky, two greens for the trees, white for snow and snowflake dots.

Christmas gnome: sage green background, red hat, grey body, white beard, a pink nose.

Red bauble: dark green background, red ball, gold cap, a white curved highlight.

Snowman: pale blue sky, white snowman, red scarf, black eyes and buttons, an orange nose.

Let each layer dry before painting on top. Acrylic dries fast, so give it five minutes, not an hour.

Loved painting these?

If you enjoy painting from a printed outline, come and paint with me on Patreon. New printable painting templates and pages go up there every month, with painted references so you can see where the colour goes.
