Christmas Card Drawing Ideas

Four hand-drawn card fronts to colour, cut out and send, plus how to draw each one in four steps

CARD FRONTS · SHEET 1 OF 2

Colour them in, cut along the dashed line and glue onto a folded A6 or 4×6 inch card. Or trace them onto watercolour paper and paint them.

The Triangle Tree

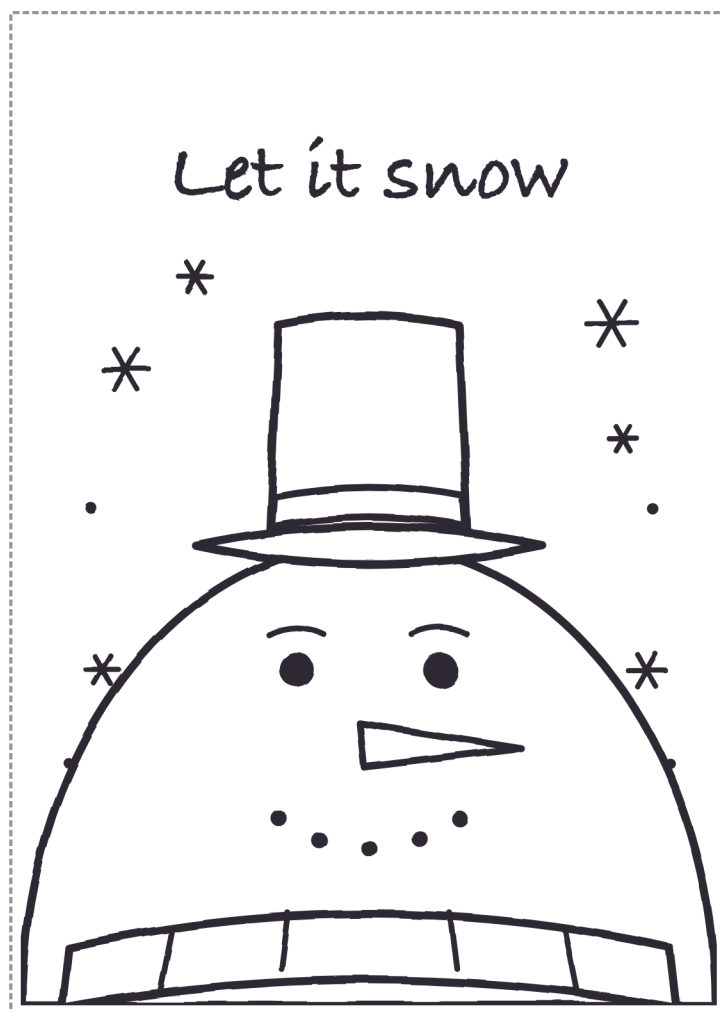

Three Baubles

Tip: colour with pencils or felt tips before you cut. A gold gel pen on the star, the baubles and the berries makes them glow.

For your own cards and gifts. Please don't sell or share the printable file itself.
