

FREE PRINTABLE PAPER ORNAMENTS

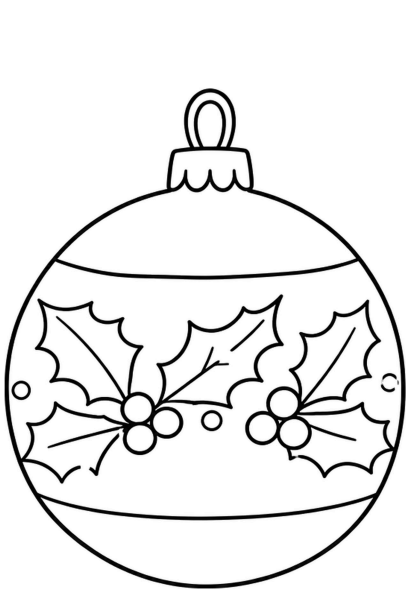

DIY Christmas Ornaments

*6 ornaments to colour, paint, cut & hang
+ a 3D slot-together bauble*

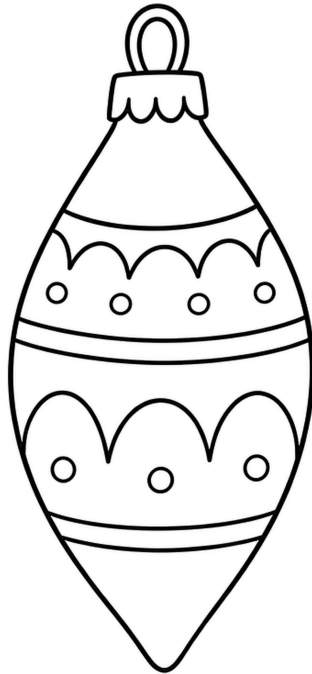

Six Ornaments to Colour or Paint

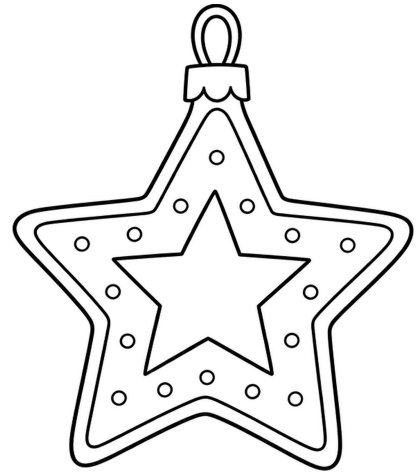

Print on card or watercolour paper, colour or paint them, then cut round the outside line and punch a hole through each loop for the ribbon.

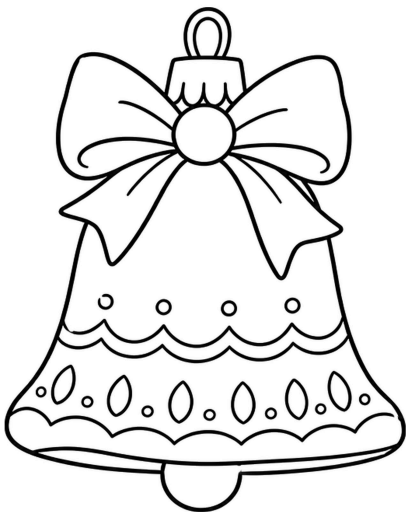

1. Holly bauble

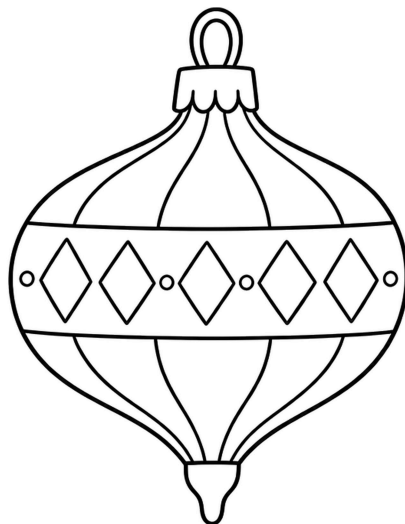

2. Teardrop drop

3. Star

4. Bell with a bow

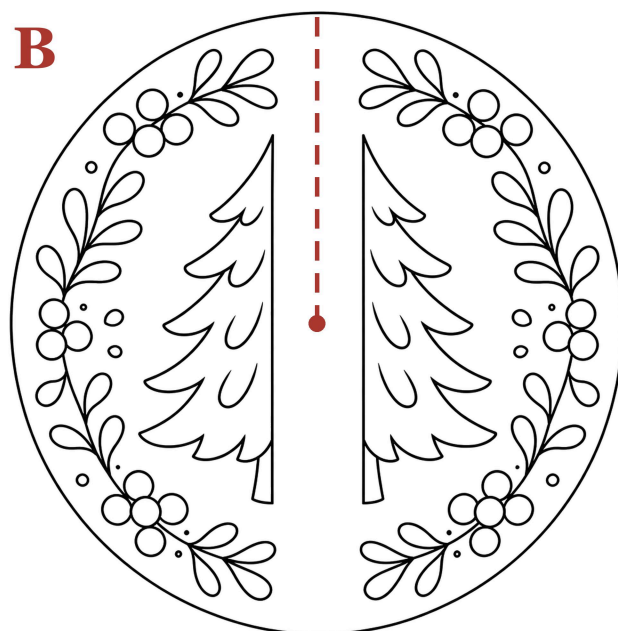

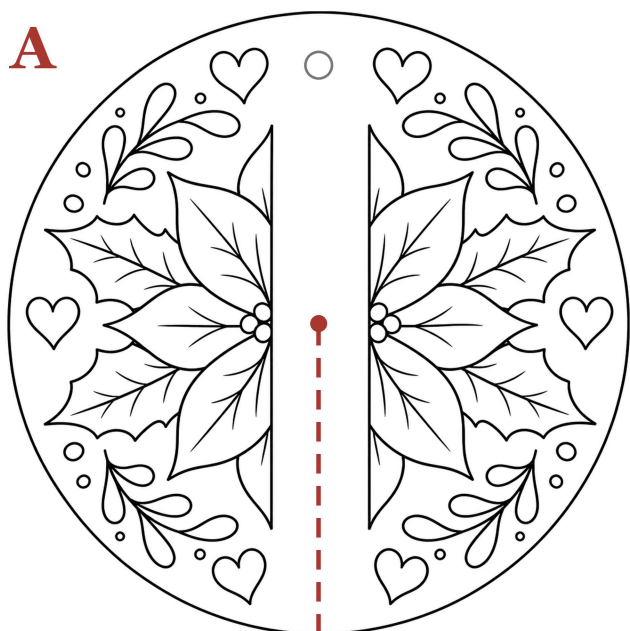

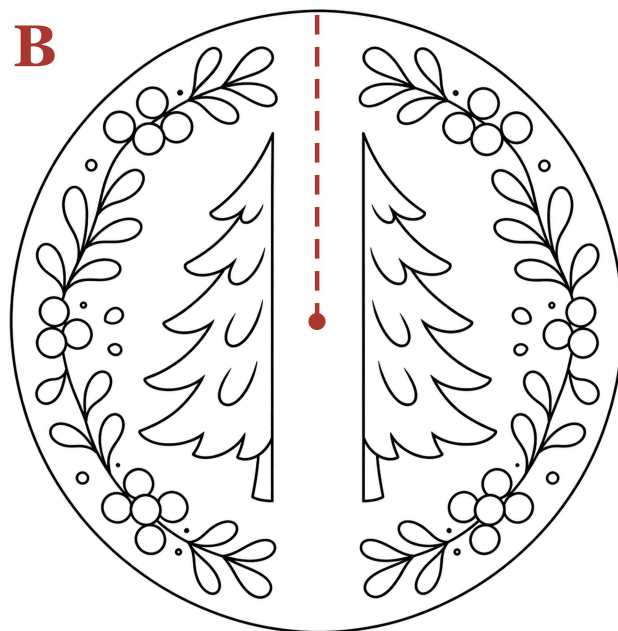

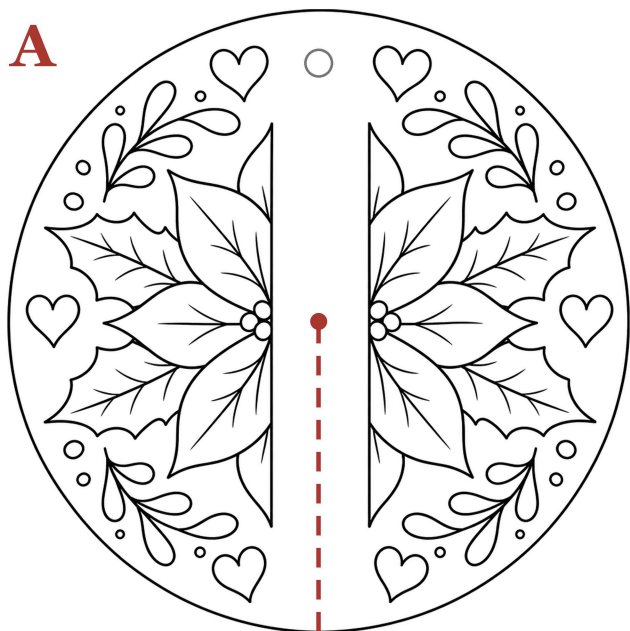

5. Vintage diamond bauble

6. Robin bauble

A 3D Slot-Together Bauble

Enough for two baubles. Colour both sides if you like, cut out each circle, then cut along the red dashed lines to the dot: A from the bottom, B from the top. Slide A down onto B so the slits lock together.

How to Make Them

1. Print on card.

Thin card (around 200 to 250 gsm) or watercolour paper is best. Print at 100%, not 'fit to page'. Ordinary printer paper works for practice, but the ornaments will curl.

2. Colour or paint.

Coloured pencils, markers, gel pens or watercolour all work. If you paint, let each ornament dry flat under a book before you cut.

3. Cut out.

Cut round the outside line with small sharp scissors. Leave the loop at the top attached and punch or pierce a hole through it.

4. Make them sturdy.

Glue each cut-out onto a second piece of card and cut round it again, so the back looks neat too. A thin coat of matte decoupage glue on the front seals the colour and stiffens the paper.

5. Hang them.

Thread ribbon, baker's twine or embroidery thread through the hole and tie a knot. Add a bead or a little bow on top if you like.

The 3D bauble.

Cut out discs A and B and cut each slit to the centre dot. Hold A with the slit at the bottom, B with the slit at the top, and slide them together until the centres meet. Punch the hole marked on A and hang it from there.

Enjoyed making these?

If you like having new things to colour and paint, come and find me on Patreon. That's where I share my new watercolour template sets and printables, with painted references so you can see where the colour goes.
