How to Draw a Nutcracker

A traditional nutcracker soldier in seven easy steps, with a page to trace, a page to draw your own and one to color

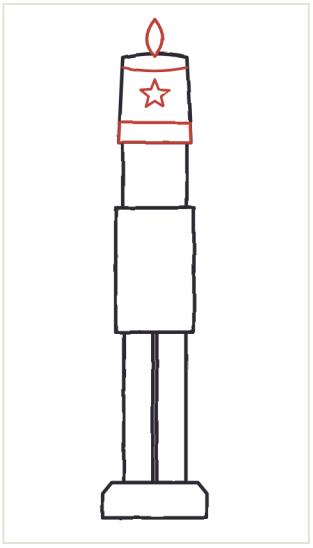

STEP BY STEP

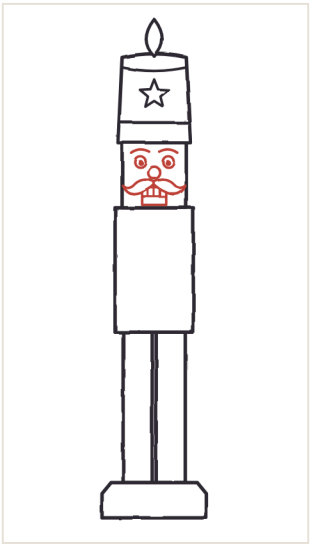

Draw a nutcracker in seven steps

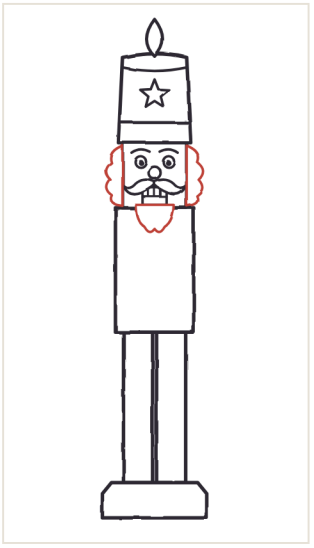

1. Block in the shapes

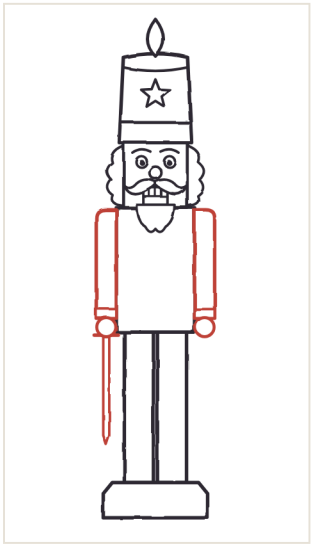

2. Add the hat details

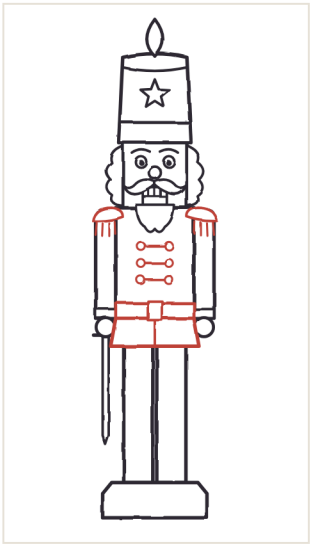

3. Draw the face

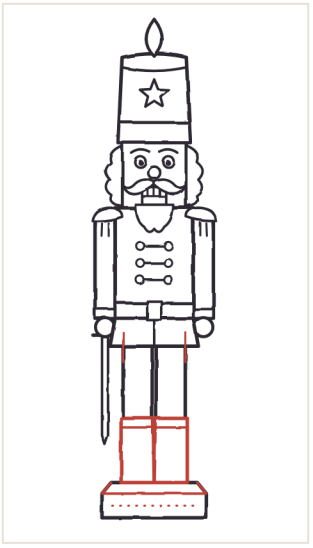

4. Add hair and a beard

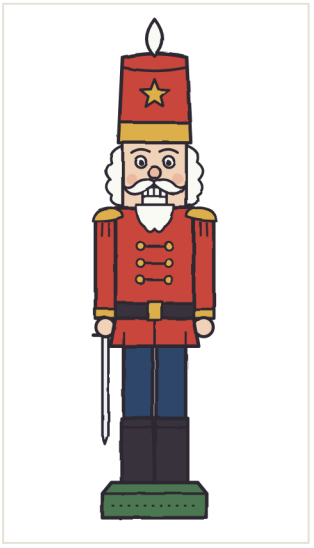

5. Arms, hands and a sword

6. Belt, buttons and braid

7. Boots and the stand

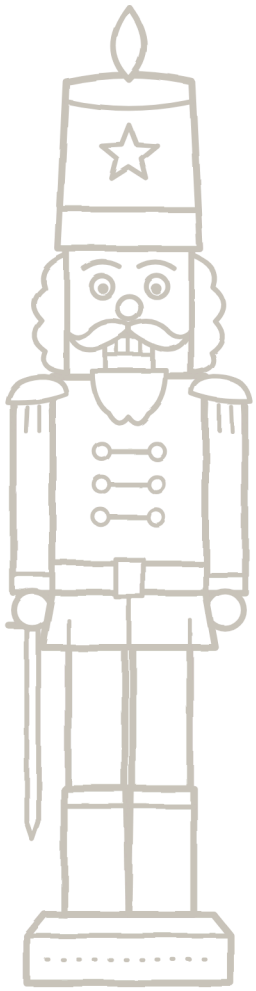

8. Add color

The red line is the new part in each step. Sketch lightly in pencil, then go over it in pen.
