Winter Sticker Sheets

6 printable sheets · 72 cosy watercolour stickers

Print on full-page sticker paper at 100% (A4) or "fit to page" (US Letter).

How to print and cut your stickers

1. Paper

Full-page matte sticker paper takes pen and pencil; glossy makes colours pop. No sticker paper? Plain paper and a glue stick work in a journal.

2. Printer settings

Choose actual size / 100% and a matte or photo paper setting on "best" quality. Print one test sheet on plain paper first.

3. Cutting

Small sharp scissors are all you need: cut round each sticker inside its white border, turning the paper rather than the scissors.

4. Cricut / Silhouette

Use the PNG sheets in the zip with Print Then Cut (Cricut) or trace the outer edge (Silhouette).

5. Ideas

Journal corners, planner headers, Christmas cards and gift tags, sealing an envelope, a kids' winter sticker scene.
